

Benchmark Score Report

Your score report provides your results and a description of your performance for the test taken on the test date.

1 Your Test Score

Your scaled total test score is reported on a scale from 100 to 300, with a scaled score of 240 representing the Benchmark Score. Your scaled total test score is based on your performance on the entire test: the number of multiple-choice questions answered correctly combined with your scores on open-response questions.

2 Description of Your Subarea Performance

Your approximate performance on each subarea is indicated for both multiple-choice and open-response items.

3 Multiple-Choice Information

Performance on the multiple-choice section is based on the number of questions answered correctly. Points are not deducted for incorrect answers. Each multiple-choice question counts the same toward the total test score.

4 Open-Response Information

Scorers judge the overall effectiveness of each response using a score scale and a set of performance characteristics. Refer to your score report explanation and the study guide for more information.

5 Range of Number of Items in Subarea

The range of the number of items in each subarea is indicated for both multiple-choice and open-response items. Individual subareas contain varying numbers of items and, therefore, contribute differently toward your total test score.

6 Testing History

This section lists the highest score you have earned on this test across all attempts and the date on which it was achieved.

7 Reporting

Your scores are automatically reported to the state through which you registered. The additional institutions and/or state teacher certification agency listed receive your scores as you indicated during registration.

State-Specific Score Report

- 1 Test Status**
Your test status is reported as “Met the Requirement” or “Did Not Meet the Requirement.” If you received a scaled total test score at or above your state’s passing score requirement, you will receive a status of “Met the Requirement.” If you received a scaled total test score below the state’s passing score requirement, you will receive a status of “Did Not Meet the Requirement.”
- 2 Your Test Score**
If your score meets the state’s passing score requirement, your numeric score will not be reported and you will receive a status of “Met the Requirement.” Your scaled total test score is based on your performance on the entire test; the number of multiple-choice questions answered correctly combined with your scores on open-response questions.
- 3 Description of Your Subarea Performance**
Your approximate performance on each subarea is indicated for both multiple-choice and open-response items. There are no passing scores for individual subareas. Your test status is based on your total test score only.
- 4 Multiple-Choice Information**
Performance on the multiple-choice section is based on the number of questions answered correctly. Points are not deducted for incorrect answers. Each multiple-choice question counts the same toward the total test score.
- 5 Open-Response Information**
Scorers judge the overall effectiveness of each response using a score scale and a set of performance characteristics. Refer to your score report explanation and the study guide for more information.
- 6 Range of Number of Items in Subarea**
The range of the number of items in each subarea is indicated for both multiple-choice and open-response items. Individual subareas contain varying numbers of items and, therefore, contribute differently toward your total test score.
